03/06/2019

Blending functionality, practicality and modern style, Parryware, India's contemporary bathroom solutions brand, recently launched its new range of kitchen sinks – **The Eco series**. Designed to complement contemporary kitchens of the 21st century, the new range is available in 15 SKUs in single bowl, double bowl, with drain board and without drain board options, for all kinds of kitchen spaces.

Parryware – Eco sink with Matte finish

The Eco series is an industry leader with key distinguishing features such as noise-free technology, smart drain that avoids water clogging, everlasting shine coating which ensures resistance to smudges, scratches and corrosion, an undercoating that protects it against condensation for improved product life and a curve design with a smooth surface along with a protective film.
