GRAFF

Griff has introduced the elegant MOD+ collection of faucets. Here, the handle covers are available in exciting colours and finishes such as Brushed Gold, Forest Green Marble, Stainless, Smiley White and Storm Black Marble. The brass selection can be further elevated with the application of any of Griff's signature finishes. The waterfall single hole is offered with three different spout shapes to satisfy the diverse design needs. All identified by a round handle that surrounds the elegant spout, the waterfall mixers feature a progressive cartridge. The deliberate use of stark elegance contrasts between the brass finishes and marble handles create splendid aesthetics. A clip on the side of each handle is added to create exemplary movement and an opportunity for customisation.

SPAN FLOORS

The latest branch of Span Floors is the Oubaid Vulcan Paneling collection comprising of gold standard solid wood wall and ceiling panels. Elegantly crafted from thermally modified PVC certified (Forest Stewardship Council) plantation timber, Oubaid Vulcan Paneling is made using lightweight, stable timber with excellent aesthetic and thermal characteristics. The collection introduces the rich feel and colour of nature into the room or an exterior ceiling. Oubaid Vulcan Paneling is highly durable, is resistant to sun, water and pests, has a natural colour, and is non-toxic. The product is made extremely stable and durable with a patented process, which includes treatment at higher temperatures, unique drying method, anti-termite treatment and an engineered construction. The wood is cut perpendicular to the grain, thus providing greater stability and less surface cracking.

FANZART

Fanzart has introduced a fan for smaller spaces — Pappo — which has a 28 sweep, LED light controls, and a remote control. The pocket-sized power house rotates at a swift 140 RPM speed with its steep pitched blades, ensuring the gust of refreshing breeze. The fan comes with an integrated 11 W LED with three light settings — warm, day and white output — thus adding functionality for both, illumination of the room as well as for reading purpose. With superior reverse air flow with whisper quiet technology and actually designed dome for better light dispersion, the LED fan is a style icon suited to every space.

PARRYWARE

Parryware has launched its artistically designed collection — Artitude — which comprises of Night Life Series, Switch Series and Ovo Series, and offers a wide range of wall hung WCs, basins and faucets. The Switch Series collection is designed in a unique spiral structure, derived from a fine combination of Quartz and Feldspar. The Night Life Series comprises of matte polished black collection, giving a bold yet dramatic bathroom statement, while the Ovo Series features a contemporary oval shape, which has subtle lines and soft contours. Artitude also has a new electronic range of automatic soap dispensers, faucets, and an electronic WC.
